The National e-Governance Division (NeGD) is an independent business division under the Digital India Corporation, Ministry of Electronics and Information Technology. NeGD has been playing a pivotal role in supporting MeitY in Programme Management and implementation of e-Governance projects and initiatives undertaken by various Ministries/ Departments, both at the Central and State levels.

NeGD has been spearheading several innovative initiatives under the aegis of the Digital India Programme. Those have been developed keeping the vision areas of Digital India at the core- providing digital infrastructure as a core utility to every citizen, governance and services on demand and in particular, digital empowerment of the citizens of our country; some of these initiatives include DigiLocker, UMANG, Poshan Tracker, OpenForge Platform, API Setu, National Academic Depository, Academic Bank of Credits, Learning Management System.

It has myriad roles and responsibilities from supporting Central Line Ministries and State Government Departments on e-Governance projects, reviewing State Action Plans, offering support in technology management, strategy formulation & implementation of Emerging Technologies viz. AI, Blockchain, GIS etc., to facilitating digital diplomacy with focus on Indian startups and products

NeGD has been a leader in implementation and execution of a gamut of pilot/ infrastructure/ technical/ special projects and support components to framing core policies, project appraisals, R&D, and guiding /conducting assessments, undertaking activities for building capacities of both Government officials and] other stakeholders, and creating mass awareness about schemes and services under the Digital India Programme.

NeGD is currently inviting applications for the following positions purely on Contract basis initially for a period of 3 years which is further extendable as per the requirement of the project.

S. No	Position	Vacancy
1	Associate Solution Architect	03
2	Security Expert (IDAM/Application/Infra)	06
3	Data Analyst	03
4	Business System Analyst	02
5	Senior Solution Architect	01
6	Functional/Business Architect (BA2)	01

* The maximum age limit shall be 55 years on the closing date of receipt of application.

** The place of posting shall be in New Delhi but transferable to project locations of NeGD as per existing policy of NeGD/DIC.

Last date for submission of applications will be: **07.09.2026**

1. Associate Solution Architect

Experience Required	7+ years of IT experience
Number of Positions	3
Reporting To	Director

About the role

The Associate Solution Architect will assist in designing application frameworks and integrations, ensuring alignment with enterprise standards.

Qualifications

B.E./B.Tech/MCA/M.Sc. (CS/IT) from a recognized University/Institution.

Technical Experience & Competencies

- Experience in APIs, databases, DevOps environments
- Exposure to containerization and cloud-native applications

Certifications

Preferred but not mandatory

Key Mandate

- Assist in architecture design
- Review technical documentation
- Support integration frameworks
- Ensure adherence to coding and security standards

2. Security Expert (IDAM/Application/Infra)

Experience Required	8–10 years cybersecurity experience
Number of Positions	6

About the role

The Security Expert will support operational security, identity management, and infrastructure protection.

Qualifications

B.E./B.Tech/MCA/M.Sc. (CS/IT) from a recognized University/Institution.

Technical Experience & Competencies

- Knowledge of IAM, firewall policies, SIEM
- Experience in vulnerability management

Certifications

CEH / Security+ preferred

Key Mandate

- Monitor security incidents
- Strengthen IAM systems
- Conduct periodic security reviews

3. Data Analyst

Experience Required	3–6 years of data analytics experience
Number of Positions	3

About the role

The Data Analyst will analyze large datasets to support policy insights and operational decision-making.

Qualifications

B.E./B.Tech/MCA/M.Sc. (CS/IT) from a recognized University/Institution.

Technical Experience & Competencies

- Strong SQL and Python skills
- Experience with BI tools (Power BI/Tableau)

Certifications

Data analytics certifications preferred

Key Mandate

- Develop dashboards and reports
- Analyze trends and KPIs
- Support data-driven decision making

4. Business System Analyst

Experience Required	5–8 years of experience in business analysis, preferably in healthcare or government IT projects
Number of Positions	2

About the Role

The Business System Analyst will support PM-JAY program operations by translating business and policy requirements into functional specifications, bridging the gap between scheme stakeholders and technical teams. The role involves process analysis, documentation, and supporting data-driven decision-making for scheme implementation.

Qualifications

B.E./B.Tech/MBA/MCA from a recognized University/Institution.

Technical Experience & Competencies

- Strong skills in requirement gathering, process mapping, and documentation (BRD/FRD)
- Working knowledge of SQL and data analysis tools for reporting purposes
- Familiarity with PM-JAY/ABDM scheme guidelines and government procurement processes
- Excellent stakeholder communication and presentation skills

Certifications

Business Analysis certifications (e.g., CBAP, PMI-PBA) preferred

Key Mandate

- Gather and document business requirements from NHA stakeholders
- Translate scheme/policy requirements into functional specifications for technical teams
- Conduct gap analysis and process mapping for PM-JAY operations
- Support UAT and validation of delivered features against business needs
- Prepare MIS reports and analytical inputs for management review

5. Senior Solution Architect

Experience Required	Minimum 15 years of overall IT experience with at least 8 years in solution/enterprise architecture roles
Number of Positions	1

About the Role

NHA is seeking a Senior Solution Architect to lead the design and governance of enterprise-grade application architectures across ABDM platforms. The role demands deep expertise in scalable system design, integration architecture, and technology standards, with the ability to guide and mentor solution architects and drive architectural decision-making at a senior level.

Qualifications

B.E./B.Tech/MCA/M.Sc. (CS/IT) from a recognized University/Institution.

Technical Experience & Competencies

- Minimum 15 years of overall IT experience with at least 8 years in solution/enterprise architecture roles
- Proven track record in designing large-scale, high-availability, cloud-native architectures
- Strong expertise in microservices, API-first design, and distributed systems
- Deep understanding of interoperability standards including FHIR, HL7, and ABDM building blocks
- Experience mentoring solution architects and leading architecture review boards

Certifications

Cloud or Enterprise Architecture certifications (AWS/Azure/GCP Solutions Architect Professional, TOGAF) preferred

Key Mandate

- Define and own the end-to-end solution architecture for ABDM platforms
- Lead architecture reviews and ensure compliance with enterprise standards
- Guide and mentor junior Solution Architects across the program
- Drive technology selection, integration patterns, and reusable architecture frameworks
- Collaborate with NHA leadership and product teams on long-term platform strategy

6. Functional/Business Architect (BA2)

Experience Required	Minimum 15 years of experience in business/functional architecture roles, preferably in healthcare or government IT
Number of Positions	1

About the Role

The Functional/Business Architect will define and govern the functional architecture of ABDM platforms, ensuring that business and scheme requirements are accurately translated into system designs aligned with NHA's strategic objectives.

Qualifications

B.E./B.Tech/MCA/MBA from a recognized University/Institution.

Technical Experience & Competencies

- Minimum 15 years of experience in business/functional architecture roles, preferably in healthcare or government IT
- Strong understanding of e-governance and digital health frameworks
- Experience in requirement analysis, process design, and functional specification documentation
- Ability to bridge business stakeholders and technical teams effectively
- Familiarity with interoperability standards (FHIR/HL7) is desirable

Certifications

Business Architecture certifications preferred

Key Mandate

- Define functional architecture aligned with ABDM business goals
- Translate scheme and policy requirements into functional design documents
- Validate solution designs against business and regulatory requirements
- Coordinate with technical architects to ensure feasibility of functional designs
- Support stakeholder workshops and requirement validation sessions

General Conditions applicable to all applicants covered under this advertisement

1. Those candidates, who are already in regular or contractual employment under Central / State Government, Public Sector Undertakings or Autonomous Bodies, are expected to apply through proper channel or attach a 'No Objection Certificate' from the employer concerned with the application OR produce No Objection Certificate at the time of interview.
2. NeGD reserves the right to fill all or some or none of the positions advertised without assigning any reason as it deems fit.
3. The positions are purely temporary in nature for the project of NeGD/DIC and the appointees shall not derive any right or claim for permanent appointment at NeGD/DIC or on any vacancies existing or that shall be advertised for recruitment by NeGD in future.
4. NeGD reserves the right to terminate the appointments of all positions with a notice of one month or without any notice by paying one month's salary in lieu of the notice period.
5. The designation of the selected candidates shall be mapped as per the existing designation policy of NeGD.
6. The prescribed eligibility criteria may be relaxed for candidates possessing exceptional qualifications, experience, or suitability for the position, subject to the approval of the Competent Authority.
7. In case of a query, the following officer may be contacted:
